

Any important elements must be within the red dotted line.

Blue dotted line is the bleed line where the design will be cut to.

Please extend design to outer black line so the design will print to the edge of the mask.

ART SPECIFICATIONS:

To ensure the best reproduction of your design, the art file should be:

- CMYK color-space
- Vector art
- If Raster, at least 300 DPI
- All fonts included or converted to outlines

Keep in mind that these top and bottom stitches will be visible on the final mask.

! IMPORTANT !

Only submit original art that you have the permission to assign to SENS Research Foundation.
